

# Families and Helpers Quick-Route Guide

A calmer read order for people using the site because something is happening now.

## Use this when

- A parent, relative, helper, or advocate needs the next step to be clearer before the bigger public record becomes useful.
- The pressure is a hearing, paperwork, housing strain, child support, or a safety concern.

## Read order

- Start Here by Situation.
- Family Hub resources and plain-English tools.
- Packets and Guides for the matching one-pager or practical pack.
- Only after that, use the dashboard or sources if the bigger public record matters for the next conversation.

## Carry first

- Family practical pack.
- Hearing-week one-pager.
- Paperwork first-sort guide.
- Family call-notes sheet.

## Important limit

- This guide is not legal advice.
- If safety is the issue, use the safety lane and crisis-support resources first.
