

Evidence Center Fast Read

A short route through the public proof layer on the JT for ME family-matters site.

Best use

- Start with the dashboard if the reader is brand new.
- Use the evidence center when someone needs the receipt trail behind the big claims.
- Use briefs, packs, and the source index when the proof needs to travel outside the site cleanly.

Read order

- 1. Claim matrix
- 2. Proof by reader
- 3. Evidence ladder
- 4. Court and regional source cards
- 5. Method notes
- 6. Initiative bridge only after the record is clear

Pair with

- Dashboard: statewide public overview
- Briefs + Data: portable one-pagers and CSVs
- Family Hub: first stop for families under immediate pressure
- Initiative page: statutory text after the record is clear

Reminder

- This page is strongest when it helps people move from claim to source to official document without screenshots or clipped quotes.
