Board Intake, Preservation, and Rule 10(c) Referral Request Concerning Associate Justice Rick E. Lawrence

To: Overseers Clerk

Cc: Board; Bar Counsel Service; Patrick S. Bedard; Amanda Morse

Clerk and Members of the Board:

Attached is my completed complaint and Rule 10(c) referral request concerning Associate Justice Rick E. Lawrence, together with the supporting exhibits.

I am sure you are tired of hearing from me. Frankly, I am tired of having to reach out.

The volume of this record is not the cause of the problem. It is the result of repeated institutional refusal to resolve the problem. Institutional arrogance continues to multiply the work in UNdue course for every person trapped in it—parties, counsel, clerks, judges, providers, regulators, and the public—and then the resulting volume is cited as a reason to disregard the person forced to create it.

This submission does not ask the Board to manufacture direct disciplinary jurisdiction over a sitting justice. It demands a written jurisdictional disposition, preservation of the full complaint and exhibits, and transmission or referral to the proper judicial-conduct authority rather than another administrative dead end.

My son is entitled to one irreplaceable thing these institutions keep treating as expendable: a real relationship with his father during his childhood.

Come hell or high water, no one will ever take such a thing from him.

I will continue protecting that right through every lawful, documented channel available.

Confirm receipt and provide the complaint, referral, or intake number assigned to this submission.
