Subject: Request for Prompt Return of Acknowledgments of Service — YORDC-FM-2010-00190

Mr. Bedard,

When I hand-delivered today's post-judgment filing packet, the clerk instructed me to obtain and file the completed returns of service.

Accordingly, please review the attached **CV-FM-036 Acknowledgment of Receipt** forms concerning the **FM-070 Motion to Enforce** and the **FM-062 Motion to Modify**.

If you are authorized to accept service on Ms. Morse's behalf, please sign, date, and return both forms by email. If you are not authorized to accept service for her, please either arrange for Ms. Morse to sign and return the forms or state that clearly in writing so I may proceed immediately with direct service through another authorized method.

The complete public filing packet has already been provided to you electronically. This request therefore requires no merits argument, no substantive response, and no reconstruction of the record. It requires only a clear answer regarding acceptance of service and, where authorized, the return of two signed receipt forms.

I am extending this professional courtesy to avoid unnecessary sheriff involvement, certified restricted-delivery expenses, additional paperwork, and yet another entirely avoidable procedural detour. I trust that neither counsel nor the parties require a sheriff to establish receipt of documents already sitting in counsel's inbox.

Please return the completed forms, or confirm that you are not authorized to accept service, by **5:00 p.m. on Monday, August 10, 2026**.

If the signed acknowledgments are not returned, I will arrange direct service upon Ms. Morse and file the resulting return of service. I will not permit the absence of a signature acknowledging receipt to become another excuse for delaying judicial review of the pending enforcement and modification issues.

Should you contend that either form is incomplete or that some different acknowledgment is required, please identify the exact alleged deficiency and the specific form you contend must be used, rather than simply withholding the requested return.

Thank you, Patrick, for what I am confident will be your prompt cooperation with this exceptionally uncomplicated administrative task.

Mr. Bedard,

Pursuant to M.R. Civ. P. 5, this email provides electronic service of the attached public and serviceable documents being tendered to the York Judicial Center today, August 7, 2026, in **YORDC-FM-2010-00190**.

The attached service packet includes:

1. Plaintiff's **FM-070 Motion to Enforce**, verified supporting attachment, memorandum of law, proposed order, focused exhibits, and related implementation materials;
2. Plaintiff's **FM-218 Motion for Expedited Hearing** and supporting attachment;
3. Plaintiff's **FM-062 Motion to Modify**, verified supporting attachment, request for sole parental rights and responsibilities and primary residential care, request for appointment of an independent guardian ad litem, memorandum, and proposed order;
4. Plaintiff's motion concerning association of rejected and corrected filing iterations, relation-back, and line-item filing-status reconciliation, together with the supporting rejection record;
5. The applicable materials concerning the **May 12, 2026 Law Court order and its direction concerning ordinary-course District Court enforcement proceedings**;
6. Plaintiff's **FM-050 Child Support Affidavit**, because the requested modification may affect primary residence and child support; and
7. The remaining public memoranda, proposed orders, declarations, and supporting exhibits submitted with the foregoing motions.

This email constitutes electronic service under Rule 5 for all documents properly governed by that rule and provides contemporaneous notice of the complete public filing package.

Because the FM-070 and FM-062 are initiating post-judgment motions, Plaintiff is **not relying upon this email as a substitute for any personal service required by M.R. Civ. P. 103**. Formal service of those initiating motions will be completed separately, and the corresponding proof of service will be filed with the Court.

The confidential Social Security Number Disclosure Form, fee-waiver application, CV-191 financial affidavit, and other court-only nonpublic materials are intentionally excluded from this service email.

Please preserve this email and all attachments as part of the service and notice record. No response is required merely to acknowledge receipt. If any attachment is missing, corrupted, incomplete, or unreadable, please identify the specific file promptly so that it can be retransmitted without unnecessary delay.

Respectfully submitted,

/s/ Justin A. Tahai, FATHER
