

# Skeptic Receipt Pack

Use this pack when someone wants to challenge the argument by checking the record directly.

## Recommended order

1. dashboard.html
2. sources.html#claim-matrix
3. downloads/data/source\_index.csv
4. downloads/records-review-checklist-public.pdf
5. briefs.html
6. initiative.html

## Purpose

This is the shortest route from claim to chart to source to bill language without relying on screenshots or slogans.

Use note

The fair test is whether the site points to the public record clearly and stays honest about what each chart does and does not show.
